Subject: Request to Donate Robo Dog Orion to a Circus for Saving Animals

Dear Shri Galgotia ji,

I am writing to you from People for the Ethical Treatment of Animals (PETA) India regarding robotic dog 'Orion' who visited the AI Impact Summit 2026.

PETA India requests that Galgotias University consider donating Orion to a circus via PETA India so that it may be used to replace real dogs used in shows who we can then rehome to loving families or in a sanctuary. Through this donation, the University can help spotlight how technology can be used to stop the suffering of animals.

In India, many circuses are still using live animals, wherein dogs, birds and other species are forced to perform confusing tricks, live a stressful life of violence and other cruelty, like constant travel and being caged or chained when not in use. Galgotias University can help change this.

The donation of Orion would show that Galgotias University is committed to animal welfare and using technology for good. Your students could even play a direct role by training circus performers to use the technology and by supporting their smooth transition to humane, tech-driven alternatives.

PETA India would be honoured to publicly acknowledge Galgotias University for its visionary contribution.

Thank you for your consideration. May I please hear from you? I can be reached at Khushboog@petaindia.org or 9910397382.

Yours sincerely,

Khushboo Gupta
